

# HOW DOES IT WORK?

## The Argen Clear Aligners Process

1

### Initiation

Doctor submits Rx form to Lab with models/scans, and photos.

2

### Case Acceptance

Lab accepts case and adds scans.

3

### Design\*

Case is submitted for design/treatment plan.

4

### Approval

Lab sends doctor a link for online 3D Viewer review, change requests, and/or approval.

5

### Manufacturing

Argen manufactures the clear aligners.

6

### Delivery

Lab receives Argen Clear Aligner package for delivery to doctor

\*Design is provided by an independent design center.
